EXPERIENCE

Senior AI/ML Engineer

Jan 2023 – Present

Tiger Analytics, India

- Built **AI Gronomist**, an edge mobile app for potato disease classification and feedback using computer vision and VLM; worked on custom FFI plugins, Flutter camera patching, background upload, and isolates.
- Developed an Android on-device LLM inference SDK in Kotlin with support for multiple inference engines, Gemma, Llama, and on-device RAG using Turso DB.
- Led R&D for **PepIris**, a fraud-photo detection and panorama-generation mobile app using React Native, C++ Turbo Modules, VisionCamera, OpenCV, and ONNX; improved app performance by 20% through profiling and optimization.
- Redesigned the Innovation Incrementality V2 analytics dashboard for 5+ international markets with i18n, configurable UI, reusable components, and O365 SSO integration; reduced time-to-market by 20% and development time by 25%.
- Created production-ready React app templates with reusable Ant Design/MUI components, reducing new project setup time by 30% and improving onboarding through documentation and bug fixes.

Software Engineer

Jan 2021 – Jan 2023

Hexaware Technologies, India

- Contributed to **RapidX**, supporting architecture and implementation of 4+ microservices with TypeScript, NestJS, Azure, MongoDB, .NET, and Docker; improved security, scalability, and reliability by 40%.
- Built a microservice to automate CI/CD YAML generation and led bug fixes, code reviews, and JMeter-based performance testing, increasing throughput by 30%.
- Reworked authentication and authorization for **Automaton** using Angular route guards and switchable SSO, LDAP, and database login, reducing login time by 15%.
- Developed a DevOps tool for RPA script management across environments and resolved 70+ critical bugs, improving Pywinauto-based task efficiency by 20%.

PROJECTS

TLDRON | *React, Browser Extension, Gemini API*

- Built a LinkedIn-focused browser extension that summarizes posts and articles and disables promoted content for a cleaner browsing experience.

Payfynder | *React, Browser Extension, Browser Web Scraping*

- Created a cross-browser extension that estimates salaries from survey data scraped from review sites.

EDUCATION

KCG College of Technology, Anna University

2017 – 2021

B.E. in Electronics and Communication Engineering

Chennai, India

SKILLS

Languages: JavaScript, TypeScript, Python, C#, HTML, CSS

Frameworks: React, React Native, Angular, NestJS, .NET Core, Tornado, ElectronJS

Mobile/AI: Flutter, BLoC, ONNX, OpenCV, VisionCamera, Executorch, Llama, MLC LLM

Databases/Cloud: MongoDB, MariaDB, MySQL, Azure, AWS, Turso

Tools: Docker, GitHub Workflow, Azure App Services, Redux Toolkit, Tailwind, Ant Design, MUI, Swagger, Storybook, Git

Concepts: SOLID, DRY, Design Patterns, Clean Code, SSO, LDAP, JWT

CERTIFICATIONS

CEFR Level B1 in Business English Communication | *Cambridge*

Certified in Python Programming | *NIIT Chennai*
